ELSEVIER

Bone Vol. 24, No. 6
June 1999:623–624

ERRATUM

Due to a production error, the Author Index that appeared at the end of the Bone May supplement entitled "National Association for the Relief of Paget's Disease: 25th Anniversary Symposium, Oxford, UK, July 15–17, 1998, Proceedings," Bone 24:1S–94S; 1999, was incorrect. The correct index is printed below.

Author Index to Bone, Vol. 24, No. 5, Supplement

Adami, S., 32S

ELSEVIER

Bone Vol. 24, No. 6
June 1999:633–638

SUBJECT INDEX
Bone, Volume 24, 1999

Abstracts
Argentine Association of Osteology and Mineral Metabolism XV Annual Meeting, 527
First European Conference on Bone Morphogenetic Proteins, 395, 409
Acetylcholinesterase
Osteoblast-derived, as mediator of cell-matrix interactions in bone, 297
Adenovirus
Gene therapy and, with bone morphogenetic protein-2, bone formation effects, 541
Adipocyte
Cloned bone marrow, interconversion potential of, 549
Adipogenesis
Cloned bone marrow adipocytes, interconversion potential of, 549
Aging
Exercise and growth hormone effects on bone strength, aged rat, 71
Histomorphometry and bone biomarkers, in monkeys, 25
$1,25(OH)_2D_3$-induced response of osteoblastic markers in osteoblasts and, 203
Skeletal effects of, rhesus monkey, 17
Transforming growth factor β levels in bone cells and, 565
Alendronate
Bone mass response during, biochemical markers as predictor of, postmenopausal women, 237
Efficacy in osteoporosis, bone turnover as biochemical marker of, 603
Spine and hip bone mineral density effects, postmenopausal osteoporosis, 65
Androgen receptor
Expression in bone marrow and stromal/osteoblastic cells, mice, 465
Anisotropy
Osteoporotic cancellous bone, 513
Apatite
Carbonated, in bone and calcified tendon, 361
Argentine Association of Osteology and Mineral Metabolism XV Annual Meeting
Abstracts, 527
Arthritis
Collagen-induced, bone changes in, histomorphometric assessment, rats, 485
Arthrosis
Calcified cartilage morphometry relation to subchondral bone remodeling in, equine, 109
Cartilage morphometry relation to subchondral bone remodeling, equine, 109

Bioimplants
Cell adhesion on orthopedic alloys and, 499
Biomarkers
Bone turnover, alendronate efficacy in osteoporosis, 603
Histomorphometry and, in monkeys, 25
Predictor of bone mass during alendronate treatment, postmenopausal women, 237
Seasonal variation, Antarctic wintering team members, 145
Biot theory
Ultrasound propagation through cancellous bone, 291
Bone
Calcium in, osteoporosis management and, 279
Carbonated apatite in, 361
Cell-matrix interactions in, osteoblast-derived acetylcholinesterase as mediator of, 297
Hormone replacement therapy effects on, 245
Osteoclasts in, IL-6 effects on, 217
Reactions during orthodontic tooth movement, rats, 371
Tissue inhibitor of matrix metalloproteinase-1 distribution in, 229
Bone cells
Transforming growth factor β levels in, age, bone volume, and concentration in bone matrix relation to, 565
Bone defects
Segmental, gastric pentadecapeptide osteogenic effects on, rabbits, 195
Bone density
Central region-of-interest analysis of, Rhesus monkeys, 29
Sp1 binding-site polymorphism lack at collagen type I α1 gene and, Korean women, 135
Bone development
Microgravity effects on, 349
Bone formation
Adenovirus-mediated gene therapy with bone morphogenetic protein-2, 541
Bone morphogenetic proteins and, Abstracts from, 395
Cancellous, parathyroid hormone effects, marrow composition and, rats, 95
Collagen-induced arthritis and, histomorphometric assessment, rats, 485
Cortical, growth hormone and testosterone effects, aged orchiectomized rats, 491
Treadmill exercise effects on, rats, 163
Type II transporters role in osteogenic cells and, 1
Bone histomorphometry
ED-71 effects on bone modeling in distraction osteogenesis, 187
Bone loss
Age-related, $1,25(OH)_2D_3$-induced response of osteoblastic markers in osteoblastic cells, 203
Age-related, rhesus monkey, 17
17β-estradiol for prevention of, 517
Estrogen-deficient, bone resorption after, comparison of methods for estimation, ovariectomized rats, 597
Paget's disease and, prevention after treatment with pamidronate disodium, 139
Postfracture, long-term follow-up study, 131
Bone markers
Biochemical, seasonal variation, Antarctic wintering team members, 145
Bone metabolism in rheumatoid arthritis and, 381
Bone marrow
Cloned, adipocytes, interconversion potential of, 549
Gastric pentadecapeptide BPC-157 osteogenic effects in segmental bone defects and, rabbits, 195
Red/yellow, parathyroid hormone effects, cancellous bone formation, rats, 95
Vitamin D receptor, estrogen, thyroid hormone receptor isoforms and androgen receptor expression in, mice, 465
Bone mass
Femoral vein ligation effects on, rat, 171

Bone Vol. 24, No. 6
June 1999:633–638

Insulin-like growth factor-I/-II concentration in cortical bone and, age-related changes in, 387
Response during alendronate treatment, biochemical markers as predictor of, postmenopausal women, 237
Bone matrix
Transforming growth factor β levels in bone cells and, 565
Bone matrix protein
Osteoblast-derived acetylcholinesterase and, 297
Bone mechanics
Connectivity and elastic properties of cancellous bone, 115
Bone metabolic changes
Seasonal variation, Antarctic wintering team members, 145
Bone metabolism
Rheumatoid arthritis with/without joint destruction, 381
Bone microarchitecture
Trabecular bone, calibration of measurements with CT, 35
Bone mineral content
Femoral vein ligation effects on bone mass and, rat, 171
Skeletal effects of aging and, rhesus monkey, 17
Bone mineral density (BMD)
Family history of fractures and, postmenopausal women, 507
Femoral vein ligation effects on bone mass and, rat, 171
Hip, after lower leg fracture, 131
Hip and spine, alendronate effects, postmenopausal osteoporosis, 65
Osteoporosis in adults with celiac disease and, 249
Parathyroid hormone and raloxifene after anabolic therapy for ovariectomy, rats, 451
Seasonal variation, Antarctic wintering team members, 145
Bone morphogenetic protein-2
Adenovirus-mediated gene therapy and, 541
Bone morphogenetic proteins
Abstracts from First European Conference, 395
Bone formation and, Abstracts from, 395
Bone regeneration and, animal studies, Abstracts from, 395
Chondrocytic activity in proximal tibial growth plate and, mice, 211
Craniofacial and dental reconstruction by, Abstracts from, 395
First European Conference on, 399
Skeletal disorders and, Abstracts from, 395
Tissue development during embryogenesis and, Abstracts from, 395
Bone morphology
Trabecular bone structure, calibration of measurements with CT, 35
Bone nodules
Osteoprogenitors, selective attachment to laminin, 329
Bone regenerate
Recombinant growth hormone effects, in distraction osteogenesis, 81
Bone regeneration
Bone morphogenetic proteins and, animal studies, abstract, 395
Bone remodeling
Calcium role in, 279
Subchondral, cartilage morphometry relation to, equine arthrosis, 109
Trabecular, node-strut analysis, ovariectomized rat, 591
Bone resorption
In distal femur and proximal tibia, estimation after ovariectomy, method comparison, rats, 597
Tyrosine kinase Src role suppression of phosphorylation and, 437
Bone strength
Exercise and growth hormone effects on, aged rat, 71
Bone structure
Trabecular, calibration of measurements with computed tomography, 35
Bone turnover
As marker of alendronate efficacy in osteoporosis, 603

C-3 epimerization pathway
1α,25-Dihydroxy-3-epi-vitamin D_3 production in osteosarcoma cell lines and, rats, 457
C-24 oxidation pathway
1α,25-Dihydroxy-3-epi-vitamin D_3 production in osteosarcoma cell lines and, rats, 457
Calcaneus
Ultrasonic measurement of, osteoporotic men and women, 611
Calcitriol
Immobilization effects renal synthesis of 1,25-dihydroxyvitamin D and, elderly stroke patients, 271
Calcium
Osteoporosis management role, 279
Calvaria
Fibroblast growth factor regulation mechanisms during chondrogenesis and osteogenesis and, 337
Cancellous bone
Connectivity and elastic properties of, 115
Osteoporotic, anisotropy of, 513
Treadmill exercise effects on, rats, 163
Ultrasound propagation through, Biot theory and, 291
Cartilage
Calcified, morphometry, relation to subchondral bone remodeling, equine arthrosis, 109
Tissue inhibitor of matrix metalloproteinase-1 distribution in bone and, 229
Cartilage development
Microgravity effects on, 349
Cartilage matrix
Epiphyseal-plate, immunoreactivity in calcifying areas of, 555
Celiac disease
Osteoporosis in adults with, 249
Cell adhesion
On orthopedic alloys, morphometric analysis of, 499
Cell attachment
Osteoprogenitors, to laminin, 329
Cell-matrix interactions
Osteoblast-derived acetylcholinesterase as mediator of, 297
Chondrocytes
Growth plate, 1,25-$(OH)_2D_3$ and 24,25-$(OH)_2D_3$ effects, prostaglandin mediation of, 475
Proximal tibial growth plate, bone morphogenetic protein alteration of, mice, 211
Chondrogenesis
Fibroblast growth factor regulation during, rats, 337
Chrome-cobalt alloy
Cell adhesion on orthopedic alloys and, 499
Clodronate
Intramuscular, postmenopausal osteoporosis, 25
Collagen
Type I cross-links, bone metabolism in rheumatoid arthritis and, 381
Collagen type I α1 gene
Sp1 binding-site polymorphism lack at, Korean women, 135
Computed tomography
Peripheral quantitative, ED-71 effects on bone modeling in distraction osteogenesis, 187
Quantitative, densitometry of femoral neck and spine, cynomolgus monkeys, 101
Trabecular bone structure, calibration of measurements with, 35
Condyle
Fibroblast growth factor regulation mechanisms during chondrogenesis and osteogenesis and, 337
Confocal laser scanning microscopy
Cell adhesion on orthopedic alloys and, 499
Connectivity
Of cancellous bone, 115

Cortical bone
Gastric pentadecapeptide BPC-157 osteogenic effects in segmental bone defects and, rabbits, 195
Insulin-like growth factor-I and -II concentration in, age-related changes in, relation to bone mass, 387
Porosity, differences, in femoral neck fracture, 57
Craniofacial reconstruction
By bone morphogenetic proteins, Abstracts from, 395
Cytokines
Nitric oxide synthase expression and functional role in osteoblast-like cells and, 179

Densitometry
Femoral neck and spine, quantitative CT use for, cynomolgus monkeys, 101
Lumbar spine, central region-of-interest analysis of bone mass, Rhesus monkeys, 29
Dental reconstruction
By bone morphogenetic proteins, Abstracts from, 395
Diet
Gluten-free, osteoporosis in adults with celiac disease and, 249
Differentiation
Nitric oxide synthase expression and functional role in osteoblast-like cells and, 179
1α,25-Dihydroxy-3-epi-vitamin D_3
Production in osteosarcoma cell lines, rats, 457
1,25-Dihydroxyvitamin D
Renal synthesis of, immobilization effects in elderly stroke patients, 271
Distal radius fracture
Changing incidence of, Japan, 265
Droloxifene
Bone anabolic effects of prostaglandin E_2 and, 41
Dual-energy X-ray absorptiometry
ED-71 effects on bone modeling in distraction osteogenesis, 187

Elderly patients
Immobilization effects renal synthesis of 1,25-dihydroxyvitamin D, stroke patients, 271
Endothelin-1
IL-6 synthesis in osteoblast-like cells and, MAP kinase involvement in, 315
Epidemiology
Changing incidence of hip, distal radius, and proximal humerus fractures in Japan, 265
Hip fracture, epidemiological study in People's Republic of China, 151
Epilepsy
Fractures and, Letter, 535
17β-Estradiol
Prevention of bone loss, postmenopausal women, 517
Estrogen
Early effects on bone, 245
Expression in bone marrow and stromal/osteoblastic cells, 465
Localization in growth plate, rabbits vs. rats at sexual maturity, 9
Osteoblast function and, postmenopausal women, 121
Etidronate
Osteoporosis, failure to respond to, 65
Exercise
Bone strengthening effects, aged rat, 71
Cancellous bone growth and, rats, 163
Skeletal effects of, interstitial fluid pressure role in, Perspective, 161
Extracellular matrix
Osteoprogenitors attachment to, 329

Facial dysmorphism
McCune-Albright syndrome and, Case report, 157
Femoral neck
Densitometry, quantitative CT use for, cynomolgus monkeys, 101
Fracture, cortical porosity differences in, 57
Femoral neck fracture
Mechanism underlying, 513
Femoral vein ligation
Bone mass effects, rat, 171
Fibroblast growth factors
Mechanisms of regulation during chondrogenesis and osteogenesis, rats, 337
First European Conference on Bone Morphogenetic Proteins, 399
Abstracts from, 409
Fractures
Epilepsy and, Letter, 535
Family history of, bone mineral density relation to, postmenopausal women, 507

Gastrectomy
Gastric pentadecapeptide BPC-157 osteogenic effects in segmental bone defects and, rabbits, 195
Gastric pentadecapeptide BPC-157
Osteogenic effects in segmental bone defects, rabbits, 195
Gene expression
Parathyroid hormone-responsive gene identification in osteoblasts, 305
Gene therapy
Adenovirus-mediated, bone morphogenetic protein-2 and, 541
Glvr-1 phosphate transporter
Expression during bone development, 1
Growth hormone
Bone strengthening effects, aged rat, 71
Cortical bone formation and, aged orchiectomized rats, 491
Recombinant, bone regenerate consolidation effects, in distraction osteogenesis, 81
Growth plate
Chondrocyte, 1,25-$(OH)_2D_3$ and 24,25-$(OH)_2D_3$ effects, prostaglandin mediation of, 475
Estrogen receptor-α in, localization of, rabbits vs. rats at sexual maturity, 9
Proximal tibial, chondrocytic activity in, bone morphogenetic protein alteration of, mice, 211

Haversian canal
Cortical porosity differences in femoral neck fracture, 57
Hemiplegia
Immobilization effects renal synthesis of 1,25-dihydroxyvitamin D and, elderly stroke patients, 271
Heredity
Family history of fractures and bone mineral density, postmenopausal women, 507
Hip bone mineral density
After lower leg fracture, 131
Alendronate effects, postmenopausal osteoporosis, 65
Hip fracture
Age distribution in Finland, 257
Changing incidence of, Japan, 265
Epidemiological study in People's Republic of China, 151
Histomorphometry
Bone biomarkers and, in monkeys, 25
Bone changes in arthritis, rats, 485
Bone reactions during orthodontic tooth movement, rats, 371
ED-71 effects on bone modeling in distraction osteogenesis, 187
Hormone replacement therapy
Early effects on bone, 245
2-β-(3-Hydroxypropoxy)-1α,25-dihydroxyvitamin D_3 (ED-71)
Bone modeling effects in distraction osteogenesis, 187
Hypercalcemia
Immobilization effects renal synthesis of 1,25-dihydroxyvitamin D and, elderly stroke patients, 271

Imaging
Quantitative backscattered electron, calibration techniques in, Letter, 619
Immobilization
Bone loss and, after lower leg fracture, long-term follow-up study, 131

Bone Vol. 24, No. 6
June 1999:633–638

Renal synthesis of 1,25-dihydroxyvitamin D and, elderly stroke patients, 271
Immunocytochemistry
Immunoreactivity in calcifying areas of epiphyseal-plate cartilage matrix, 555
Parathyroid hormone, insulin-like growth factor and, 89
Immunohistochemistry
Fibroblast growth factor regulation mechanisms during chondrogenesis and osteogenesis, rats, 337
Implantation
Gastric pentadecapeptide BPC-157 osteogenic effects in segmental bone defects and, rabbits, 195
Implants
Hydroxyapatite ceramic, osteoconduction in, 579
Indomethacin
Femoral vein ligation effects on bone mass and, rat, 171
Insulin-like growth factor-I
Bone regenerate in distraction osteogenesis and, 81
Insulin-like growth factor-I/-II
Concentration in cortical bone, age-related changes in, relation to bone mass, 387
β_3-Integrin
Bone sialoprotein and, expression during osteoblast differentiation, 321
Interleukin-6
Effects on osteoclasts, 217
Interstitial fluid flow
Femoral vein ligation effects on bone mass and, rat, 171
Interstitial fluid pressure
Skeletal effects of exercise and, perspective, 161
Intramedullary pressure
Femoral vein ligation effects on bone mass and, rat, 171

Laminin
Osteoprogenitor selective attachment to, 329
Letters to the Editor, 525, 619
Lower leg
Fracture, bone mineral density in hip after, long-term follow-up study, 131

Males
Osteoporosis and, growth hormone and testosterone effects on cortical bone formation and, 491
Matrix calcification
Phosphate transporter role in, 1
Matrix metalloproteinase-1
Tissue inhibitor of, distribution in bone, 229
McCune-Albright syndrome
Mimicking Paget's disease, Case report, 157
Mechanical loading
Exercise effects on cancellous bone growth and, rats, 163
Mental retardation
Causes of, Letter, 535
Microgravity
Skeletal tissue development and, 349
Mineralization
Microgravity effects on, 349
Mitogen-activated protein kinase
Endothelin-1-induced IL-6 synthesis in osteoblast-like cells and, 315
Modeling
ED-71 effects on, in distraction osteogenesis, 187
Morphometry
Calcified cartilage, relation to subchondral bone remodeling, equine arthrosis, 109

Nitric oxide synthase
Expression and functional role in osteoblast-like cells, 179

1,25$(OH)_2D_3$
Effects, osteoblastic markers in osteoblastic cells, site of origin and aging effects on, 203
1,25-$(OH)_2D_3$
Prostaglandin mediation of effects in growth plate chondrocytes, 475
24,25-$(OH)_2D_3$
Prostaglandin mediation of effects in growth plate chondrocytes, 475
Orthodontics
Bone reactions during orthodontic tooth movement, rats, 371
Ossification
Endochondral, proximal tibial growth plate and, mice, 211
Osteoarthritis
Lumbar spine densitometry and, Rhesus monkeys, 29
Skeletal effects of aging and, rhesus monkey, 17
Osteoblastic cells
Syndecan expression regulation by osteosarcoma cell lines, 571
Osteoblasts
Cell adhesion on orthopedic alloys, morphometric analysis of, 499
Cloned bone marrow adipocytes and, interconversion potential of, 549
Differentiation, β_3-integrin and bone sialoprotein expression during, 321
Estrogen effects on, postmenopausal women, 121
Fibroblast growth factor regulation mechanisms during chondrogenesis and osteogenesis and, 337
Insulin-like growth factor and, parathyroid hormone effects, 89
Nitric oxide synthase expression and functional role in, 179
1,25$(OH)_2D_3$-induced response of osteoblastic markers in, site of origin and aging effects on, 203
Parathyroid hormone-responsive gene identification in, 305
Tissue inhibitor of matrix metalloproteinase-1 distribution in bone and, 229
Vitamin D receptor, estrogen, thyroid hormone receptor isoforms and androgen receptor expression in, mice, 465
Osteocalcin
N-terminal midfragment, bone mass response during alendronate treatment and, postmenopausal women, 237
Type I cross-links, bone metabolism in rheumatoid arthritis and, 381
Osteoclasts
IL-6 effects on, 217
Tissue inhibitor of matrix metalloproteinase-1 distribution in bone and, 229
Osteoconduction
Hydroxyapatite ceramic implants, 579
Osteogenesis
Distraction, ED-71 effects on bone modeling in, 187
Distraction, growth hormone acceleration of bone regenerate consolidation in, 81
Fibroblast growth factor regulation during, rats, 337
Osteogenic cells
Type II transporter's role in, 1
Osteopenia
Bone anabolic effects of prostaglandin E_2 and Droloxifene effects, 41
Immobilization effects renal synthesis of 1,25-dihydroxyvitamin D and, elderly stroke patients, 271
Osteoporosis
Alendronate effects on spine and hip bone mineral density, 65
Alendronate treatment, bone turnover as biochemical marker of efficacy, 603
Calcium for management of, 279
Celiac disease, adult patients, 249
Central region-of-interest analysis of bone density, Rhesus monkeys, 29
Clodronate therapy effects, 25
Early effects of hormone replacement therapy on bone and, 245
Family history of fractures and bone mineral density and, postmenopausal women, 507
Lumbar spine densitometry and, Rhesus monkeys, 29

Prevalent and incident spine fractures and, 261
Secondary, vertebral deformity risks and, women, 49
Skeletal effects of aging and, rhesus monkey, 17
Sp1 binding-site polymorphism lack at collagen type I α1 gene and, Korean women, 135
Src inhibitors and, 437
Ultrasonic measurement of calcaneus and, women and men, 611

Osteoprogenitors
Selective attachment to laminin, 329

Osteosarcoma cells
1α,25-Dihydroxy-3-epi-vitamin D_3 production in, rats, 457
Syndecan expression regulation by, 571

Ovariectomy
Parathyroid hormone and raloxifene after anabolic therapy for, rats, 451
Parathyroid hormone effects on cancellous bone formation after, marrow composition and, rats, 95

Paget's disease
Appendicular bone loss in, prevention after treatment with pamidronate disodium, 139
McCune-Albright syndrome mimicking, Case report, 157

Pamidronate disodium
Appendicular bone loss in Paget's disease after treatment with, 139

Paralysis
Skeleton mass during growth and, Perspective, 161

Parathyroid hormone
Gene identification in osteoblasts, 305
Osteoblast expression of insulin-like growth factor and, 89
Raloxifene and, after anabolic therapy, ovariectomized rats, 451

Pentadecapeptide
Gastric, osteogenic effects in segmental bone defects, rabbits, 195

Phosphate transport
Expression during bone development, 1

Polymorphism restriction fragment length
Collagen type I α1 gene and, Korean women, 135

Porosity
Cortical, differences, femoral neck fracture, 57

Proliferation
Nitric oxide synthase expression and functional role in osteoblast-like cells and, 179

Prostaglandin
Femoral vein ligation effects on bone mass and, rat, 171

Prostaglandin E_2
Bone anabolic effects of, Droloxifene effects on, rats, 41

Protein kinase C
Endothelin-1-induced IL-6 synthesis in osteoblast-like cells and, 315

Proximal humerus fracture
Changing incidence of, Japan, 265

Pyridinoline
Type I cross-links, bone metabolism in rheumatoid arthritis and, 381

Raloxifene
Parathyroid hormone and, after anabolic therapy, ovariectomized rats, 451

Rats
Bone reactions during orthodontic tooth movement, 371
Estrogen receptor-a localization in growth plate, rabbits vs. rats at sexual maturity, 9
Exercise effects on cancellous bone growth, 163

Rhesus monkey
Skeletal effects of aging in, 17

Rheumatoid arthritis
Bone metabolism in, 381

Scanning electron microscopy
Osteoconduction in hydroxyapatite ceramic implants, 579

Sialoprotein
Bone, β_3-integrin and, expression during osteoblast differentiation, 321

Skeletal deformities
McCune-Albright syndrome and, case report, 157

Skeletal disorders
Bone morphogenetic proteins and, abstract, 396

Skeleton mass
Exercise effects on, interstitial fluid pressure role in, Perspective, 161

Spaceflight
Microgravity effects on skeletal tissue development, 349

Spine
Bone mineral density, alendronate effects, postmenopausal osteoporosis, 65
Densitometry, quantitative CT use for, cynomolgus monkeys, 101
Fracture, prevalent and incident, spatial relationships between, 261

Stroke
Immobilization effects renal synthesis of 1,25-dihydroxyvitamin D and, elderly stroke patients, 271

Stromal cells
IL-6 secreted by, effects on osteoclasts, 217
Vitamin D receptor, estrogen, thyroid hormone receptor isoforms and androgen receptor expression in, mice, 465

Synchrotron
Carbonated apatite in bone and calcified tendon and, 361

Syndecans
Fibroblast growth factor regulation mechanisms during chondrogenesis and osteogenesis and, 337
Regulation of expression by osteosarcoma cell lines, 571

Tendon
Calcified, carbonated apatite in, 361

Testosterone
Cortical bone formation and, aged orchiectomized rats, 491

Texture analysis
Carbonated apatite in bone and calcified tendon, 361

Thyroid hormone receptor isoforms
Expression in bone marrow and stromal/osteoblastic cells, 465

Tissue development
During embryogenesis, bone morphogenetic proteins and, Abstracts from, 395

Tissue inhibitor
Of matrix metalloproteinase-1, distribution in bone, 229

Titanium alloy
Cell adhesion on orthopedic alloys and, 499

Trabecular bone
Connectivity and elastic properties of, 115
Remodeling process, node-strut analysis, ovariectomized rat, 591

Transforming growth factor β
Levels in bone cells, age, bone volume, and concentration in bone matrix relation to, 565

Ultrasound
Calcaneus measurement, osteoporotic women and men, 611
Propagation through cancellous bone, Biot theory and, 291

Urine C-telopeptides
Bone mass response during alendronate treatment and, postmenopausal women, 237

Vertebra
Densitometry, quantitative CT use for, cynomolgus monkeys, 101
Prevalent and incident fractures, spatial relationships between, 261

Vertebral fracture
Secondary osteoporosis and, women, 49

Bone Vol. 24, No. 6
June 1999:633–638

Villous atrophy
Osteoporosis in adults with celiac disease and, 249
Vitamin D
Osteoporosis in adults with celiac disease and, 249
Vitamin D receptor
Expression in bone marrow and stromal/osteoblastic cells, 465
Women
Sp1 binding-site polymorphism lack at collagen type I α1 gene, Korean women, 135
Women, postmenopausal
Bone mass response during alendronate treatment, biochemical markers as predictor of, 237
17β-estradiol for prevention of bone loss in, 517
Estrogen effects on osteoblast function, 121
Osteoporosis, intramuscular clodronate effects, 25
